THE MOUNTAIN CLUB

PEDREGAL, LOS CABOS

Perched above the Sea of Cortez, The Mountain Club redefines coastal living in Pedregal. This new private residential community is a rare blend of architectural mastery, serene natural beauty, and an elevated lifestyle centered around privacy, wellness, and connection. From thoughtfully designed residences designed to frame sea views to a world-class membership club, every detail has been curated to offer an unparalleled experience in Los Cabos' most breathtaking Baja setting.

In the membership club, owners enjoy access to state-of-the-art fitness studio and spa, two pools overlooking the ocean, a juice bar, members-only events, and Fénix—The Mountain Club's premier dining destination where Chef César Pita brings his passion for open-fire cooking to life through fresh seafood, flame-grilled specialties, and artisanal cocktails.

Sales have officially launched for the first release of Costa Villas, a limited collection of two-, three-, and four-bedroom residences designed for effortless indoor-outdoor living with panoramic sea views. Pricing starts from US $1.7 million. Construction is underway, with completion anticipated in Q1 2027.

Now is the time to claim your place in this once-in-a-generation residential enclave. With demand high, this is your opportunity to become part of Pedregal's next chapter.
